Dear Mother & Betty Jean,
I know you have been thinking of me and Grace.
I have been thinking of Brock but thought of Grace
are gone forever. She is going to marry Claude Barron
of Marshall. I met the boy one night but don't know
much about him. If she wants him it pleases
me for I wouldn't want to have a girl that
hasn't the heart to tell a man when she is falling
for another. I knew she thought lots of the boy
but didn't think she would marry him. The
only thing I don't like is who she is marrying.
From what I hear he is not the man for her.
People are subject to change though.

She wrote to me till Jan 13. She knew that
she and I were through the first of December or before.
I don't see how she could marry some one and write
me the letters she wrote. I wrote her yesterday
and let her know what I thought. She may feel
like cutting my throat when she reads what
I had to say.

I cared a lot about her before I got her letter. But
now I am a different man. Bob and others have
told me that this would happen but I didn't believe
them. There must not be a woman that can be trusted.
If Grace couldn't be trusted I know there are now
that can. Of course I am not talking about

married women and my sister.

I want you to write Grace or send her a
Card of Congratulations. There is no need for
us to hate each other just because she
wanted to get married. It may be the best for
us in the long run, especially her. You know
how women are these days. People say I am not
human because I say it is no need of such
actions.

You want to bring Betty Jean up in away
that she won't think of doing the wrong thing.
She is of age to know what life is all about.
And if she is not coached she may be easily
led by some of the girls and boys she fools around
with. I know because I was that age once.
Bob and I are going to do all we can to see
that she gets what she wants so she will have
no excuse to do a wrong.

We got two long letters from you Wednesday.
They really looked good. The old boat kept
us waiting quiet awhile. Bob is going
to write you often now! He knows what
letters mean to you; He is a busy man though.
The show job keeps him on the move; it is his
recreation period though.

Handfast. We are all
your boys. You find parents all
are dependant on their soldiers.
We have dentists here but they have
than than they can think of doing. They have three skins
for the 4000 men plus the officer, officer wives &
children and non commission officers and wives
and children. The boy that cleaned my teeth is
one of the medical Corps Corp. He works for a
Captain. He used the Captain's tools and chair.
Bob did get his teeth cleaned. I paid for the work out
of my salary. Allen and I are in business.
I get 25¢ and he gets a dollar. All I do is
tell him that someone wants their cleaned and
he does the work. He is not a very good partner though.
he cleans teeth only when he wants to. I don't
like that kind of business. I haven't asked anyone
to have teeth cleaned yet, but I have made two or
three dollars.

but don't get around me
like I did. I sent 13 rolls
of young film 00. and one roll was
not exposed. I don't know how it happened. They
were nice about it. They are sending it back to
me. They want me to send it back to them
when we take eight exposures.

We would like to hear from Maude
Lee and others that owe us a letter. Don't
fail to send her our address. Oh yes, we want
Charlie's address too.

I'm going to bring this to a close for I
am ready for bed and the lights are about to
go out. I will write you again soon. Be
sweet and take care of yourself and your
friends.

lots of love to all

Dearest Mother and Bettye Jean,

I know you have been thinking of me and Grace. I have been thinking of Brock but thoughts of Grace are gone forever. She is going to marry Claude Barren of Marsfield. I suppose you think we are slowing up an our letter but it seems that they don't send but one boat to the coast a week. This want have until Friday. I want our last lot. and I don't want it get an account of its no use. It has a week since a boat came in so expect we will get a couple of letters tomorrow by some way.

Brock took me down to visit the Coter Sunday and we had a wonderful time. I have been in a lot of houses but never as friendly as theirs. We went in and talk about 30 min. and she made us pull our coats and this old. Her daughter come in a little later and boy was she good looking and friendly as can be. a little while after she came she was pulling our share off to teach us to do the hula dance. She was on one side and her mother was on the other trying to shake our hips loose. After we quit dancing we all spread out in the middle of the floor and I enjoyed it so much. She also served us tacos, but chocolate and brandy. We stayed till about 11:00. She fixed us by tell us to come back. They are really wonderful. They are also getting us date for 7th night. Brock is taking her daughter (Mavis). You know this is the first date in about a year and a half so I am all excited over it. I think Brock fell for Mavis and I can't blame him. He will let him to forget Grace too. We called up and got

Permutations at 'for you chei' pinda oh on expenses, but
oh course that's the place they go to. I expect Brock
will get a good lesson in dancing too, for she can
really dance. I think she will teach him how, she
had better for me are going to spend his money that
I was going to give him dancing for the party. I had
borrowed \$10.00. I sure wish we had a car. we could
really have a swell time. These taxes run up into
money. They are \$25 instead of \$10 so our taxi bill
will run \$18. It will be a nice experience too I have
never had a date with out a car. I won't know what to
do but will find out I suppose. I hope we can
get a little rating some can go out every once and
a while, and it will take some clothes too. We
are going to try to get a few more worth, and would
like to get a dinner jacket and towels before we get
home. You know we are in society if we can stand
it. It's a break that my few get a number. It would
make this other year pass quick to I like it
better already.

Did I tell you about our President's Ball party.
we had a lovely time, but didn't have much an-
account as we didn't have organs, but we made all
the high spots and hats. we were big shots you
know, but our run we will have a better time
Friday night. I can't hardly wait.

I am going to wait until to morrow and get
your letter before I finish so will be seeing you.
(I didn't get to finish your letter) will later

Dear Mother,

I suppose you think we are slowing up on our letters but it seems that they don't send but one boat to the coast a week. This won't leave until Friday. I wrote Ava last Sat. and I haven't mailed it yet on account of it's no use. It's been a week since a boat came in so expect we will get a couple of letters tomorrow, hope anyway.

Brock took me down to meet the Cady's Sunday and we had a wonderful time. I have been in a ton of homes but none as friendly as theirs. We went in and talked about 30 min and she made us pull our coats and ties off. Her daughter came in in a little later and boy was she good looking and friendly as can be. A little while after she came she was pulling our shoes off to teach us to do the hula dance. She was on one side and her mother was on the other trying to shake our hips loose. After we quit dancing we all sprawled out in the middle of the floor and I enjoyed it so much. She also served us tea and coffee, hot chocolate and brandy. We stayed till about 11:00. She kissed us by told us to come back. They are really wonderful. They are also getting us dates for Friday night. Brock is taking her daughter (Marjorie). You know this is the first date in about a year and a half so I am all excited over it. I think Brock fell for Margie and I can't blame him. It will help him to forget Grace too. We called up and got reservations at "Loi Yu Chai". Kinda expensive but of course that's the places they go to. I expect Brock will get a good lesson in dancing too, for she can really dance. I think she will teach him how, she had better for we are going to spend his money that I was going to give him dancing for the party. I also borrowed \$10. I sure wish we had a car. We could really have a swell time. These taxis run up into money. They are 25¢ instead of 10¢ so our taxi bill will run \$7 or \$8. It will be a new experience too. I have never had a date without a car. I won't know what to do but will find out I suppose. I hope we can get a better rating so we can go out every once and a while, and it will take some clothes too. We are going to try to get a few next month and would like to get a dinner jacket and a tuxedo before we get home. For now we are in society if we can stand it. It's a brake that very few get over here. It would make this other year pass quick too. I like it better already.

I got the letter you wrote just after you heard from me and what I thought about Grace getting married. I don't know how it happened but you told me just what I thought when I got her letter.

It's strange how one can  so much about a person when that person does something wrong which concerns a friend. I don't know what she had in mind; I may never know. She knows what she did and I know one thing she did. She drew the parting line of our close friendship. I will be her friend but I will never feel toward her as I did last year. Just like I said before if she could write a letter like she did I could call it quits with out shedding a tear.

No mother, I do not class everybody around me as  I give everyone a chance to  me what they are. I was think of the old saying. "Can't trust any woman". Dear mother & Betty Jean

I know you are mad for not getting a letter before now, but I don't suppose it can be helped. They only ~~have~~ one boat to coast a week now, but maybe ~~they~~ will start sending more before long. We got two nice letters from you & Betty yesterday, and they sure were like rain. I got ready to write you and looked for them to arrive, and found Brock had taken both of them so he should have a real long letter.

We have been moving to log in our new oblique. It is going to be much better when we get straightened out.

We had a plane to crash Tuesday and a lot of excitement of course. There were 6 in it and they were going to the big island about 9:30 at night. One of the engines stop and ~~they~~ had too big of a load for just one. The last report ~~they~~ got from them was that they would be forced to land and of course ~~they~~ ^{we} thought they had gone down in the water. We sent out all the planes searching for them and we spotted them the next day about 9:00 o'clock. They made it to the island and crashed in a deep valley about a mile deep.

The only way to get to them is by boat so they
have a party going after them. They were supposed to
get there to day and will probably get there tomorrow
or Sat. we dropped them food and blankets from a
plane, and also a note asking if they were all alright
and if so to wave a flag so they would see the
flag. ~~say~~ so they must not be hurt very bad.
The plane is completely wrecked.

Brook and I put in for the C. A. A. exam down
town last week so we figure if we don't
pass the Randolph exam we can take that. It
is the same course they have at Summitt. It
only cost \$6. for an physics exam so we will go
down to get it next week. I have really been
studying the past two weeks. Sum like I don't
have time for anything. I take my books to the
office and study there in my spare time. If I
don't pass it won't be my fault. I hope Brook
puttyburg my visit too. I do hope I can pass yet.
The King boy is going back Tuesday. Strickland had a
head when he will go, but am sure it won't be
long. Brook has got to have his credit from Summitt

before he can top his exam so rush it back
as soon as possible for I want him to top it
in may I am sure he will pass it all right.
I will be happy if we both make it for it is
really worth while.

I am glad you all had a big day at
Ava's and she enjoyed it so much. Too bad the
car had to go and break down. Hope it don't give
you any more trouble. We got the pictures
of Sue and the house. That Sue is the cutest
thing I have ever seen. I can't hardly wait
to see her. I don't know whether Ava is going
to agree with you hoping her this summer or
not, but she don't. She was right when she
said she didn't have a yard for she hadn't got
any. I hope she has a lot of flowers in it, ha.
anyway it want be hard to keep warm with
it. From all accounts you all don't like Watchy
much. I don't know much about it but I didn't
like the look of it. Ava said maybe is going
to try to transfer back to McCamb. hope he
can.

I was glad to hear that you got a
hacker for that room. Hope you can keep him
order. Our bills are running pretty high this
month. \$12 for physical room \$15 to drink to uncle
Babron and I am \$10 besides toilet articles and
cigarettes.

We are planning on going down to see Mrs.
Cody Sunday eve. we called them up the other
day and she ~~was~~ wondered why we hadn't been
before. We will wrap up for last time now.

B. J. how are you coming in the music
but you can play most anything now.

I quit work at the Theatre Monday night. It
took too much of my time and too I wasn't
making anything either.

I from Brock has a nice letter so I will close
and study a little.

Love
Bob

Dear Mother and Betty Jean,

I know you are mad for not getting a letter before now but I don't suppose it can be helped. They only send one boat to the coast a week now, but maybe they will start sending more before long. We got two nice setters from you and B.J. yesterday and they sure were live savers. I got ready to write you and looked for them to answer and found Brock had taken both of them so he should have a real large letter.

We have been moving today in our new office. It is going to be much better when we get straightened out.

We had a plane to crash Tuesday and a lot of excitement of course. There were 6 in it and they were going to the big island about 9:30 at night. The last [unreadable] they got from them was that they would be forced to land and of course we thought they had gone down in the water. Brock has got to have his credits from Summit before he can take his exam so rush it back as soon as possible for I want him to take it in May. I'm sure he will pass it alright. I will be happy if we both make it for it is really worthwhile.

I sure am glad you all had a big day at Ava's and she enjoyed it so much. Too bad the car and to go and break down. Hope it don't give you any more trouble. We got the pictures of Sue and the house. That Sue is the cutest thing I have ever seen. I can't hardly wait to see her. I don't know whether Ava is going to agree with you keeping her this summer or not, bet she don't. She was right when she said she didn't have a yard for she hadn't got any. I [unreadable] she has a lot of flowers in it, ha. Anyway it won't be hard to keep mowed will it. From all accounts you all don't like Natchez much. I don't know much about it but I didn't like the looks of it. Ava said Major is going to try to transfer back to McComb, hope he can.

I sure was glad to hear that you got a boarder for that room. Hope you can keep him. Our bills are running pretty [damage] this month. \$12 for physical exam, \$15 to [damage] to uncle Hobson and I owe \$10 besides toilet articles and [unreadable].

We are planning on going down to see Mrs.. Cady Sunday eve. We called them up the other day and she wondered why we hadn't been back. We will make up for lost time now.

dots I decided they look nice and they do since hanging
the pounce are real nice in living room they reach
floor and hang nice & full. I put kitchen curtains
in kitchen one on window & one on door. I have
polished all the furniture and you'd be surprised how
the color came back if I varnish anything it will
be a clear varnish even bookcase looks nice. We
haven't put wax on floors yet Major is gonna do that
this week-end. Really rug in living room is all I could
use. after getting everything arranged tho' things don't
look quite so crowded. I'm gonna use two crotone
to make couch cover and have chair & couch as are till
spring. They look O.K. since I cleaned them and I'll
put light cover on couch then. we're paying cash
for groceries and Major's raise doesn't come in till
15th so we're sitting tight. Listen when Hartman collects

Did you go out to place? Mother if Gelks' can pay you \$50. I'd like to see them get it. Has he seen McLeod Yet? Who was the other family? Who drove you?

I guess I lost my patterns. Did B. Jean ask Nell about them? Bet she has them.

Major, Sue, & I walked down to river last night. It's only 7 blocks from here. The bridge is beautiful at night. We explored business section of town. I guess I'll [unreadable] get adjusted after I've been her a while. Rcon? We trade at Super Service Store and it's a huge thing. Stays open till 9 at night so we can shop after supper. Shu had a picnic last night had Major all over place. I have the wash woman don't know what she'll be like yet.

Have you heard from boys? Seems ages since I read their letter. Send one to me for will be good while before I hear from them here.

Have you heard from Aunt Babe yet? I wrote she and Edna a card. Be glad when my mail get's started. I need it.

Sue is swell. Not even runny nose. Has two more crooked upper teeth but not so bad as other one. She is sleeping late here in mornings and I am glad. Then doesn't take nap till afternoon & gives me time to rest when I get where I can.

I have cramps this morn and am nursing hot pad as usual. Guess I always will.
Huh?

Major said if B. Jean has Miss Ott she has best teacher she's ever had. I bet she'll like it much better there. How is basketball coming? Bet she makes the string. How's her dress coming? Tell her I want her to have it on Xmas. How is her permanent? I do hope it does good. Her hair worries me. Let her have it set every [unreadable] anyway and tell her to sleep in net every night. I'm gonna get mine Xmas. I sure need one bad. Gonna put henna on mine and if have time on B. Jeans. Think you can stand 2 red heads?

No news so will close and write boys. I wrote them short note Monday. I'm gonna write you long letter once a week & fill in cards now & then. Time I keep house and Sue mostly Sue. Ha. write boys and few more people I'll have my time taken. I'm gonna make Sue's two dresses.

We're enrolling her in cradle roll Sunday and go to Sunday School. Church is 3 blocks away. Love, Ava

*The letter from Feb 27, 1941 refers to Bessie's visiting Ava in Natchez, this letter talks about Sue's teeth coming in, which would indicate she is about 1-2 years old. This letter also mentions the family going on a picnic and walking to the Mississippi river, indicating nice weather, not cold or hot.

I know you think you have been getting too many short letters from me lately. I only hope that you will work with me ~~in~~ so much as to except a note when ever I have the time to write it.

I am a school boy; I have been for one week I took an Exam of 70ms yesterday. If I were the man that grades the papers I ~~would~~ would make a hundred or at least 95.

Today will be my first day in electricity. That is why I am pushed for time. I have a long lesson that I should study. Who knows I may get to write you a longer letter to send out on next boat.

I went up to see Dad last night to get the letter he wrote you but I didn't see him. He is studying every chance he gets. You will be surprised to know what he has learned in the past ten days. He means to learn something, believe it or not. You don't know.

Don't get too restless. We are going to
send you two albums full of pictures within
the next two or three weeks; next month I know!
I sent off three rolls of films ~~last~~ week that
will complete the albums

Good luck to you dears. I want to see
a Atom about a molecule. I love you
dearly.

I think I have good or bad news for you. The right adjective will be determined by our ability to handle Mr. Kenna. 

I need my credits from the college but he doesn't want to let them go until I pay by bill. Isn't there some way to make him turn them loose? I wrote him a nice letter this morning. I don't know how much good it will do. Here is where you come in. I have no time to waste. Every minute is to be guarded. I don't like to ask this of you mother but I have got to have those credits by first of next month. you go to him and see what he tells you. If he won't let you have them see Paul Johnston or some one.

Why I need the credits? The office is holding up my application for Randolph. If I get the credits I want have to take the exam. you know what that means. I am not afraid of the exam but it will be best if I can get in without taking the exam.

Tell Mr. Kenna that I am going to pay him
the chicken feed I owe him. Why would he
let \$50 stand between me and a future. If
he has a heart at all he will let me have
what I ask.

He will get my letter the same day you
get this one. If you will see him on that date
or a day later we may have him where we
want him. If you get what I want send
it to me my Clipper (204). I would have sent
his letter by Clipper but the next Clipper doesn't
leave until the 23rd.

I am glad that you got your man border.
Your ^{expense} ~~return~~ for last month looked good to
me. Maybe you will make a good hostess
after all. You said the girls moved into one
room. Do they pay same board as they did for
one room? I don't know much about your
business. If they pay same you made a great
deal. you will have the other room taken in
a couple months.

I got a letter from Marjorie last week. She didn't say any thing about Grace and her engagement. There is something fishy going on back there. I can't let fuck bother me for I am through with women for awhile.

I hope Mr. Mitchell is right. If you get the land back the place will sell easy. It will do us good to know that Mr. Walter didn't get to keep his bargain too.

There was nothing wrong with your report card Fitzgibbon. If you averaged ~~the~~ the first semester with what you had to contend with you will make all A's from now on. Make A's in your books; first string in basket ball, and a good basketball player and you will have them all beat.

Don't you worry about the bill with Sears. We will take care of it if she said she would. If you had to make an extra payment she will pay it back. I will see to that personally. We are going to work together so we can all be on top in the near future.

I don't think I would want to lose my refrigerator
either. She hated to ask you to pay the bill
just like I hated to ask you to pay Mr.
Kenna a visit.

What did Lwa mean when she said she
has cramps this time? I think she forgot to
put in a sentence.

Bak has his papers in for Randolph exam too.
He was down yesterday for some books to study.
I think we will make the grade soon.

Good day and good luck. I will
see you again soon. Lots of love to
all,

Bob

P.S. I got another letter from Lwa this
week. She is getting better about her
writing.

Wednesday 26, 1941

Dearest Mother & B. J.,

Nothing is wrong so don't get excited. If you are calm I will tell you why I sent this air mail. No need to tell you though for the money order speaks as loud as words. I have decided to pay Southwest what Bob and I owe. The state rent miss Gunt sent me comes to \$43.70. Make her figure the total up again. It could be that she is a mistake before. She says Bob owes her better than four dollars but she owes him that much. We want to make over that though. If she says \$43.70 pay her but don't pay no more. Just a minute if Mr. Kennan let you have my hours you need not pay my bill. I would like very much to make this personal. But I have got to have my hours at all cost. Give all teachers our regards.

We got two long letters from you today. I enjoyed them to the fullest. The picture of Sue is precious. I like the boss of Al's house too. If the back is like everyone says there should be a wire put up. If there is danger it is all but murder to let it go with out being fixed.

We got a letter from Eva too. It was written before you went to see her. I am sure you had a big time while there.

I got another letter from Grace this morning. This first since the first of January. She wrote just after she received my letter. She said my letter made her think but she didn't go into detail. She said she wasn't going to get married now. I never marry Claude. I want say it was my letter that brought about the change but I do know that I told her enough to make some kind of a change. She didn't even tell her mother about their plans. If I hadn't written Mrs. Butler she wouldn't have known it. I am glad that Grace is not marrying Claude, for her good only; I am not interested myself.

The dancing lessons have not begun. I am thinking of starting but have not made the move. I have enough to think of right now. I am studying for Randolph, I am going to put in for CAA when they send me application blanks, my name is in for mechanic school too. When all is settled I will think of dancing. Bob and I studied Gammety all afternoon. We stopped working at the theatre last night. We have everything to gain and nothing to lose. His work there was a pass time but studying is a better pass time and more valuable. We will be ready for the test in May.

By the way, send my love by clipper. I want them as soon as possible. I hope they are on their way now but I have my doubts.

Betty Jean, mother will give you two dollars to go in your bank. I would send more but you know why. I know two dollars is a small sum but you will have to wait. The money is for a good cause mother so you may let her have it and not ask what she may want with it.

Now that your house is full what are you going to do; you can't look for a boarder for you don't have room for one. I am glad that you got all rooms full. You better squeeze a dollar here and there for an unlucky day may come, we all hope that day will never come though. All ways remembered don't be late in asking for what you need. If you can see a dark day ahead let us know and we will put a light there for you. We don't make magic but that is yours if you need it.

You are a good driver so don't let any body keep you in. Get out and drive to your heart's content. Take a few minutes out back day to get out and get plenty fresh air and sun shine.

Betty Jean, how many pieces can you play on your saxophone? Keep up the good work! Love Karl Sissos to all.

Bob will write his letter soon and I will help out with another note.

Dear Mother and Betty Jean,

It not only seems long but it has been ages since I wrote last. There wasn't much need of writing though for no boat left lately and the next one leaves Friday. So, you see I am still on my toes. A lot of my time is taken up with my studies but I still have time to write you. I don't recall where I left off in my last letter so I will commence with last Thursday night.

As you know we three visited Mrs. Cadys family and two of their girl friends. The first thing was a piece of fruit foal candy. Catherine couldn't rest till I ate a piece of her candy that was full of salt. I don't see why anyone would mess up good candy with salt, do you!

Ma and Edith were at Mrs. Cadys when we arrived. The Carmel pie was made for us too. She served the pie with hot chocolate; my favorite. The pie had a delicious flavor but it was rather soft. It was her first time to try the recipe and too she used too much milk. She decided different about the cream. She found out what you meant. When I told

Dear Mother & Betty Ann,

Will have in every one to day? of our

ache and went down to the dentist
and a boy put a couple fillings out so
it would quit hurting until to
day. Went back this morning and
the Dr. pulled two of them in my
left jaw. They were about he said
it hurts like the hell side of my
mouth is out. I hated to see them
pulled but suppose it's the best
thing to do. It makes a ugly hole in
back of mouth but you can't tell it
from the front.

Will B. S. I suppose you had a
swell time at the contest. I can
hardly wait to hear from it. Maybe
next year you will be playing in
it. How did you like sleeping in the

that?

I am wondering how count is coming out. I do hope you get the land back bar it will make the place worth more and too I want to see them lose it. That was mean of him selling M.C. the land and things, but couldn't expect nothing else from him. I am wondering if he is going to purchase or not. I have my doubts. We got a note from him saying he was going. I hope he does bar that the first offer bar him. I expect he will like it.

We got a nice letter from Ava this morning she came to be feeling a lot better. She sent a picture of the negro girl holding Sue. It was real cute. Said mother was happy at work too. It is the first decent letter we have had from her in good while.

Black, Ray, J.C. and I went down
to the Black broadcast lot and buried
it late. I have been planning on it
a long time but finally made it. we
made her pictures and came back to
town and bought us a pair of shoes
and her other things. We sat supper
and went home. Sunday Kayser millions

motor cycle. we had lots of fun.
we got in a rain about half way
around and got wet. we started up on
the ptui, thats a road going up a mountain
which is about 3,000 ft high. It goes
almost straight up. It was my first
time to go up. we got back about 5:00 PM.

will be well soon.

we will go down to the library
Sunday for some kind of entertainment.

Mrs Cady is on the committee and she

what he has.

you ask about the ice box. I think
its a good idea but I know you need
it and it will come in handy later.

That garden sounds like a like some

Well how is every one today? I am OK except for one thing. I woke up last night about 11:30 with a terrible tooth ache and I went down to the dispensary and a boy got a couple of fillings and so it would quit hurting until today. I am wondering how court is coming out. I do hope you get the land back for it will make the place worth more and too I want to see them loose it. That was mean of him selling N.C. the house and things, but couldn't expect nothing else from him. I am wondering if he is going to Panama or not. I have my doubts. We got a note from him saying he was going. I hope he does for that's the kind of place for him. I expect he will like it.

We got a nice letter from Ava this morning. She seems to be feeling a lot better. She sent a picture of the negro girl holding Sue. It was real cute. Said Major was back at work too. It is the first decent letter we have had from her in a good while.

Brock, Ray, J.C. and I went down to the Brock broadcast [unreadable]. I have been planning on it a long time but finally made it. We made few pictures and came back to town and bought us a pair of shoes and a few other things. We got supper and went home. Sunday Harper, William and I went around the Island on his motorcycle. We had lots of fun. We got in a rain about half way around and got wet. We started up on the Pilu, that's a road going up a mountain which is about 3000 ft. high. It goes almost straight up. your eldest son is on "K.P." His first day was the fifth of this month; his last day will be December 5. I was luck to get my duty as a "K.P.". The K.P. Chaser is a close friend. He is the mess sergeant's right hand man. This friend call me to one side my first day and told me of a job that is almost no job that would cost me a few dollars. He could get any one to take it but he gave me the break; I accepted the offer. I have to get up at five but I don't start working until 8:15. I eat at five. Then I come back to bed until 7:30 or 8:00. I work until 9 or 9:30 and I am through until 1:30. I work until 2:30 in the afternoon. So you see I work about three hours a day; the others work three meals a day, sweep and mop after every meal. They finish at 6:30 at night. Would you have accepted the offer that was made to me? He asked for \$3 which is only a drop in the bucket. Some boys say that much to get off one day. It goes to show that it's who you know in the army and not what you know. Eighty-five percent of the men in charge can be bought. It's a racket. The men in my squadron are all the time asking me what kind of a job I have or how do you manage to stay on your bunk instead of in the kitchen. I tell them that I

am the supply sergeant. ~~Most~~^{Two} of the N.C.O.s that
sleep near me are all the time asking questions
that shouldn't interest them. They are non-commissioned
officers and it is in their head that they are to
tell us what to do. I feel like cutting them short
sometimes or asking them what is it to them
what I do. After all I am the one living my life.
They are my friends but still I don't like the way
they do or the way they talk. I act like I am
in a room by my self. I do what I want to do
at any time of the night ~~and~~ day.

Bob, Clayton Broyles, Jameson, and I went dancing
at the Central Union Church Monday night. There were
some nice looking girls there but there were
too many that didn't look to suite me. Also.
we enjoyed the evening very much. The dance
was suppose to stop at 11:00 but the next day was
a holiday (Armistice day) so we added 45 minutes
on the end. I danced with three girls from Roosevelt
High School that know Marjorie Cady. we talk
about her plus other things.

I stayed in yesterday and last night. Chester
Grabark and I went swimming in the Dickson
Field yesterday afternoon. It opened Sunday
morning. It is one of the largest I've seen over
here. I may visit it often.

I have been a home stay most of the week. No dates, so I stay home. Bob, Eugene Ray, Chester and I went to the Hawaiian theatre to see Jean Bennett in "She Knows All the Answers". We enjoyed the show even though it wasn't a first class picture in my opinion.

I am still on "K 8" working two or three hours a day. I do some reading and a little writing. I should be studying for the "A. M." test that I take in December. I took the practical yesterday. I was asked about 30 or 40 questions about the engines of an airplane. I don't know what kind of a grade he will give me. I didn't know all the answers but I knew a lot of them.

Sorry that there is no news at this time. Maybe I will have something to tell you in the next letter. Be sweet and remember that I love you dearly.

Love
Brock.

Hi is the mess Sergeants right hand man. This friend call me to one side my first day and told me of a job that is almost no job that would cost me a few dollars. He could get anyone to take it but he gave me the break. I accepted the offer. I have to get up at five but I don't start working until 8:15. I eat at five. Then I come back to bed until 7:30 or 8:00. I work until 9 or 9:30 and I am through until 1:30. I work until 2:30 in the afternoon. So you see I work about three hours a day; the others work three meals a day, sweep and mop up after every meal. The finish at 6:30 at night. Would you have accepted the offer that was made to me? He asked for \$3 which is only a drop in the bucket. Some boys pay that much to get off one day. It goes to show that it's who you know in the Army and not what you know. Eighty five percent of the men and charge can be bought. It's a racket. The men in my squadron are all he time asking me what kind of a job I have or how do you manage to stay on your bunk instead of in the kitchen. I tell them that I am the supply sergeant. The NCOs that sleep near me are all the time asking qu3estions that shouldn't interest them. They are non-commissioned officers and it is in their head that they are to tell us what to do. I feel like cutting them short sometimes or asking them what is it to them what I do. After all I am the one living my life. They are my friends but still I don't like the way they do or the way they talk. I act like I am in a room by myself. I do what I want to do at any time of the night and day.

Bob, Clayton, Broyles, Jamison, and I went dancing at the Central Union Church Monday night. There were some nice looking girls there but there were too many that didn't look to suite me. Also we enjoyed the evening very much. The dance was supposed to stop at 10:30 but the next day was a holiday (Armistice day) so we added 45 minutes on the end. I danced with three girls from Roosevelt High School that know Marjorie Cady. We talk about her plus other things.

I stayed in yesterday and last night. Chester Graborek and I went swimming in the Hickam Field pool yesterday afternoon. It opened Sunday morning. It is one of the largest I've seen over here. I may visit it often.

I have been a home boy most of the week. No dates, so I stay home. Bob, Eugene Ray, Chester and I went to the Hawaiian theatre to see Jean Bennitt in "She Knows All the Answers". We enjoyed he show even though it wasn't a first class picture in my opinion.

I am still on "K.P." working two or three hours a day. I do some reading and a little writing. I should be studying for the A.M. test that I take in December. I took the practical yesterday and was asked about 30 or 40 questions about the engines of an airplane. I don't know what kind of a grade he will give me. I didn't know all the answers but I knew a lot of them.

Sorry that there is not news at this time. Maybe I well have something to tell you in the next letter. Be sweet and remember that I love you dearly.

Love

Brock

Dear mother & B.J.

will laugh as if we are going to have to stand short on letters. we didnt get one from you last week ~~and~~ and sent a short one this week. I got a long letter from Bilda today the first in long time. I dont think I will answer it for it would only cause me to ^{have to} write that many more and you know how I hate to write letters. I am sure now but think I will just forget them all except yours & Aue.

By the way did you know that you addressed ~~of~~ your last letter to Honolulu, miss. and it took it 16 days to get here. It went via Alaska and they changed it to Hawaii.

I am doing O.K. in school and like it fine. I made 87 this week, but we have a hard test next week so expect it might drop a little but will try to keep it up. I have 10 more week now and will be glad when its over.

So they hadnt heard from daddy yet. will write him soon and it dont bother me at all for I am not interested. I hope the ~~test~~ trial will turn out O.K. and will be glad when

its own. I don't see why you would have any
trouble with it and if he is not then it
should be easier.

It sounds as tho cousin Fattie is about
done for. I am glad he went back home. It
would have been nice if he had picked them
~~both~~ both out of the back door. I can't picture
anyone doing something like that.

Joe had about with being rich hope he gets
over it real soon. So Hubert too would well
I imagine they will live it much better for
I can see why they wouldn't get along.

Well tomorrow is Thanksgiving and I hope
I will be full I can hardly see all after noon
and night. We have a big dinner on the Field
and Brock, Carlin, Betty and I are dining &
dancing tomorrow night with a big dinner. I
got Brock a date with Carlin (Betty's friend) and
I am sure he will like her very much. He is
in anything like Betty I am sure he will. Betty
& I had a wonderful time on the Brock Sunday. She
had a darn good dinner with fried chicken & all

the trimming. we stayed out until about 10:00
and came back to town. I am having a better
time than I have ever had and time is flying
by.

we go down to Mrs. Cady's Sunday evening
for a big dinner and I know we will have a big
time. we went to an orchard show with them
last night and they saw beautiful one which
you could have seen them.

we don't know when the boat goes out any more
they want to let them public the schedule any
more so we put it up and hope it gets there.

It looks as tho I have run out of anything to
write so will see you later

Dear mother and B.J.

Well looks as if we are going to have to stand short on letters. We didn't get one from you last week and just a short one this week. I got a long letter from Hilda today the first in a long time. I don't think I will answer it for it would only cause me to have to write that many more and you know how I hate to write letters. I owe several now but think I will just forget them all except yours and Ava.

By the way did you know that you addressed your last letter to Honolulu, Miss. and it took 16 days to get here. I went to New Orleans and they changed it to Hawaii.

I am doing OK in school and like it fine. I made 87 this week, but we have a hard test next week so expect it might drop a little but will try to keep it up. I have 10 more weeks now and will be glad when it is over.

So they hadn't heard from daddy yet. Well neither have I and it don't bother me at all for I am not interested. I hope the trial will turn out OK and will be glad when it's over. I don't see why you would have any trouble with it and if he is not there it should be easy.

It sounds as the cousin Fattie is about done for. I am glad he went back home. It would have been nice if he had kicked them both out of the back door. I can't [unreadable] anyone doing something like that.

Too bad about Webb being sick. Hope he gets over it real soon. So Hobart has moved. Well I imagine they will like it much better for I can see why they wouldn't get along.

Well tomorrow is Thanksgiving and I know I will be so full I can hardly see all afternoon and night. We have a big dinner on the field and Brock, Carbian, Betty and I are dining & dancing tomorrow night with a big dinner. I got Brock a date with Carbian (Betty's friend) and I am sure he will like her very much. If she is anything like Betty I am sure he will. Betty and I had a wonderful time on the Beach Sunday. She had a darn good dinner with fried chicken & all the trimmings. We stayed out until about 10:00 and came back to town. I am having a better time than I have ever had and time is flying by.

We go down to Mrs.. Cady's Sunday evening for a big dinner and know we will have a big time. We went to an orchid show with them Sat Night and they saw beautiful ones wish you could have seen them.

We don't know when the boat goes out any more. They won't let them publish the schedule any more so we just write and hope it gets there.

It looks as though I have run out of anything to write so will see you later.

Dearest Ones,

Here is the letter I promised you. But first of all I will tell you what I want you to do for me for Xmas. Send Mrs. & Mrs. + Katherine Cady a Xmas card (a nice one about 10¢ or 15¢) 2093 Matt-Smith Dr. You don't know the Emersons but it's okay for you to send them one too. Mr. & Mrs. Kenneth Emerson, 3499 Alani Dr.

Most important is something to Mayonice Cady - Whitman College, Walla Walla, Washington. You should know what she would like better than I. A sack of pecans, a fruit cake, or some present that is a part of the south. I should send her something from here but I don't know what to get her.

You asked for my measurements. Here they are: Shirt ~~33~~ 14 1/2 - 33 - Trousers 31 - 34 3/4. Bob will tell you his. I think his shirt is 15 - 33 and trousers 32 - 34. Who won the argument?

I haven't had as many dates as I should have had but I will tell you what I did for pass time.

Keep in mind that I am on K P.

I am lost before I start I don't even know what day to begin with. I do know that Bob, Jan King, and I dropped by to see the Cadeys after we had dinner in town one day last week. They were read to attend an Orchestral parade at the Art

meadow. I saw some beautiful flowers and all of them were orchids. All sizes, colors and shapes. Mrs. Casby enjoyed it better than I for she knows more about flowers.

Barbara, Chuter Graknak, and I went to the circus last Friday night. It was Barbara's first since she was eight years old. She was scared to ride the whip and Javis rode so we went to ~~the~~ ^{two} shows. The first was to see the people ride motor cycles on the tank. If you haven't seen this do so at the next fair. Barbara and others got plenty scared. The crazy man and woman went all over that tank, up & down and around about 8" from the ~~top~~ ^{top}. I enjoyed it because it takes nerves to ride like that.

The second show was the circus. Lions, seals, and monkeys that are trained better than I. The trapeze ~~was~~ ^{stunts} good too.

We left the circus and stopped at Spaulds for foot longs and Coca Colas (circus food). I had to get Barbara home early for she had to work the next day. She enjoyed the evening immensely. I could tell for she is not used to things like that.

The Hickam Field monthly dance was on Monday night. It was like the rest of them. Several ~~coming~~ but out of my class. Barbara came out and brought three nice girls. I danced with them but none of the others.

The dance was over; I saw Barbara to her car. On my way to the Barracks I saw Clayton Broyles, a driver of a Command Car for some of the girls. He asked me to go in with him; I did. There were two girls; sisters. I sat between them and Broyles drove them home. The girls were cute and partial interesting. Broyles & I were back on the post at 1:15.

The dancing class that was scheduled for Monday night took place Tuesday night. The University Club met at seven so I didn't dance. The meeting was short. Blair and I went to the Princess Theatre to see "The Shepherd & The Hills" at 8:15. It was a good picture but I don't like that type of story.

Wednesday must have been one of my lucky days. I didn't pull KP that afternoon because the University Club was invited to Mrs. Robinsons for an afternoon of entertainment.

I asked for King & Bethel to get a get well card for a friend to send his daddy. I came back thirty minutes later and found a blue piece of

paper on the windshield under the wiper. It was a ticket; I was parked in a loading zone. It use to be a parking place but they didn't make a good job of removing the white paint when they made the change. (I gave the ticket to Bob ^{Shan} beginning morning.)

The ticket didn't bother me. I went on to the party. The home is the most beautiful I've been in here. 2429 ~~Wana~~ Neuma Ave. The house is better than 100 ft off the road on the top of a small mountain. The hill is all filled up with shrubs and flowers. There is a river in the valley. All this is on their property and is in plain view. The hostess had girls also. I had lots of fun for a while. The girl ^{hours} with hat to leave at 3:30 Mrs. Wall and Barbara came at four. I was with them the rest of the evening. I took Barbara down and showed her what a beautiful place it was. Mrs. Wall watched us. She said we looked so romantic walking across the stream on stepping stones (I was surprised to hear her say such.) We have an invitation to go back on the 27. I am going early, get a girl and enjoy myself. We will sit under the palm trees and watch the water flow. I don't think the girl will be Barbara this time.

11-25-41

I spent a quite day at home; went to the mess hall frequently. You see this was Thanksgiving day. I was on K P but I didn't have anything to do. First I gave Bob the traffic ticket; he took it like a man. A few hours later I carried him a cluster of bananas; about two dozen large ones. Thirty minutes later I sacked up a three lbs. of fruit cake and a half dozen apples; he put them in the car.

Nuts and Candy were in sacks for the boys. Each boy was given one sack. Brock didn't stand short. I emptied several sacks into one and gave them to Bob. I did the same for Eugene Ray. The same for me twice. There were several hundred lb sacks of ~~small sacks~~ left from dinner. I got a gunny sack full. I brought them up and separated the nuts from the candy. I gave Mrs. Cady a sack of nuts (wall nuts, pecans, negro toes, and ches nuts) and candy (all kind). I gave her some of the fruit cake too. I did the same for Mrs. Wall. One corner of my foot locker is being used for nuts and candy storage.

Bob, Eugene Ray, and I left at 1:30 to see Moon over Miami at the Varsity theatre. It was a beautiful picture.

we stopped by the police station and paid the fine (\$1.00) for parking in a loading zone. Then we made our delivery to Mrs Cady & the Wall's. We had to make the calls short because we had dates at 7:30.

The dates were with two pretty and sweet girls. Betty & Carolyn. You have heard a lot of Betty and you may hear more of Carolyn soon. It was my first date with her so want tell too much. We had dinner at Jan Yee Chai. It was suppose to be a Thoms giving dinner but there food was short; we settled for a big juicy steak. We had a few dances and a short drive before telling the girls good night.

I went to the East theatre Friday night to see "Forced Landing", a class B picture but not bad. I went to the show because I slept all day and I needed to get out for awhile.

Blair, Wood, and I went to the Hawaiian theatre Saturday night to see "Sun Valley Serenade" - Senja Henie on ice. It was a good story.

Sunday was a big day. I was on K P from 7:30 to 8:30. Bob and I went to the Cady's to help prepare for that nite. I took pears, raisins, grapes, candy, and more nuts for decoration.

we had a nice crowd. Mr & Mrs. Emerson
dropped in before dinner; they stayed for dinner.
During the meal Mr & Mrs. Gregg dropped in.
No one knew they were coming. Three nurses
from Queen Hospital came after dinner. The
evening ended at midnight. All of us had
a wonderful time. we had hot spiked pineapple
juice before dinner. we didn't eat our pie until
the turkey settled. Pie was served with Port Wine.
Everything went over swell.

So ends another week in Hawaii. This
week is not going to be as full though. I think my
being thing jealous.

Your Xmas gifts have not been mailed. I have
them packed but not wrapped with heavy paper. you
will find all of them in one package. Awa's, Major's, & Luis
can be distinguished by the tags. It may not seem
reasonable but the package is valued at \$15 or more.
Luis doll for instance cost \$1.45. The salt and pepper
shaker \$1.25. we didn't know what to get. Everything
is so high and too this is no place to buy gifts.

If you will send me addresses I will send cards.
I have 25 ready to send; I am getting 25 more next
week. No news so will close. Love

Hello Every one,

Just a few lines to let you know that I
still on my feet. I would write a letter but I know
Bob has told you everything.

We went on a mountain hike Sunday. It is
one great pleasure. I think I have missed lots by
not going before now. I can't go to church and on
hike too so I have decided to hike awhile. I will
be the same though.

The trail was ten miles long. There were about
sixty of us on the hike. Two of us lost the trail and
had to make us one. We had lots of fun. A lady invited
us in and gave us ice water. She let us look through
her field glasses also. We saw the name on a tree when
we hit. It was a Dr. Cooper. We could see all
along the coast for miles which was six miles away.
They have a wonderful view of Honolulu and Waikiki. I
went swimming when we got back off the hike. I am
crazy about the water now.

We wrote Dr. Hawley for a recommendation. I started
to send it back to him. It read as follows. "I have known
the boys for several years. As far as I know they have no
bad habits." We haven't heard from Seth since at all.

when we get our insurance changed I want
to get it paid up to the time that the payments are
supposed to be paid. I think it is April. You find
out and let's get this thing in good shape. I wrote
the Company a letter but Bob doesn't like the sound so
he is going to write it. This is what I wrote.

Since changes have come about in our family, we
wish for our policies to be changed in case either
I pass away the beneficiary is ~~Bob~~ Mrs. Bessie
Doeck Thomhill. If you have papers to be signed by us
we will be ready to sign at any time.

We don't like to trouble people that we are in
business with but I am sure you are more than
glad to make the changes for us.

Sincerely
B & B. J.

What is wrong with the above please tell me. I
think it is a matter piece within itself.

You will find inclosed \$5 for the necessary use.
Bob got his Cotton Check. We sent the back payment
on car; thus more and it is ours.

Be Sweet and take care of your self

Hello Everyone,

Just a few lines to let you know that I'm still on my feet. I would write a letter but I know Bob has told you everything.

We went on a mountain hike Sunday. It is one great pleasure. I think I have missed lots by not going before now. I can't go to church and on a hike too so I have decided to hike awhile. I will be the same though.

The trail was ten mile long. There were about sixty of us on the hike. Ten of us lost the trail and had to make us one. We had lots of fun. A lady invited us in and gave us [?] water. She let us look through her field glasses also. We saw the name on a tree when we hit. It was a Dr. Cooper. We could see all along the coast for miles which was six miles away. They have a wonderful view of Honolulu and Waikiki. I went swimming when we got back off the hike. I am crazy about the water now.

We wrote Dr. Harvey for a recommendation. I started to send it back to him it read as following. "I have known the boys for several years. As far as I know they have no bad habits". We haven't heard from Seth Ginn at all.

When we get our insurance changed I want to get it paid up to the time that the payments are supposed to be paid. I think it is April. You find out and let's get this thing in good shape. I wrote the company a letter but Bob doesn't like the sound so he is going to write it. This is what I wrote.

Since changes have come about in our family we wish for our policies to be changed in case wither of us pass away to the beneficiary is Mrs.. Bessie Brock Thornhill. If you have the papers to be signed by us we will be ready to sign at any time.

We don't like to trouble people that we are in business with but I am sure you are more than glad to make the changes for us.

What is wrong with the above please tell me. I think it is a masterpiece within itself.

You will find enclosed \$5 for the necessary use. Bob got his cotton check. We sent the back payment on car; three more and it is ours.

Be Sweet and take care of yourself,

Lots of Love,

*The mentioned car was destroyed during the bombing at Pearl Harbor, so this letter must have been written before then.
